DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Thode (US 4,348,604).

Regarding claim 1, Thode discloses a dynamoelectric machine with a closed interior cooling circuit and heat exchanger within a heat exchanger housing (72,74,76), the heat exchanger being in the form of a plate heat exchanger (104,106,108,110,112), wherein the exchanger plates are mutually separated by spacers which have been incorporated on one or both sides into the exchanger plates by a stamping process, specifically, by deep-drawing (process of making no patent weight).

Regarding claims 2-21, it is note that Thode disclose all the claimed limitations of the claimed invention.
